EASTERN CARIBBEAN SECURITIES MARKET LICENSING POLICY FOR INDIVIDUALS

EASTERN CARIBBEAN SECURITIES MARKET LICENSING POLICY

PART I - PRELIMINARY

1.0 Background

All individuals who wish to engage in the conduct of securities business in the ECSM are required to be licensed by the Eastern Caribbean Securities Regulatory Commission (ECSRC). Pursuant to section 163 of the Securities Act² (“the Act”) “*the Commission may from time to time issue such guidance notes, bulletins, advice or other regulatory statements as it may consider necessary or desirable for the administration of this Act.*”

2.0 Objectives

The Policy aims to:

- i) provide general information for individuals seeking to be certified and licensed to conduct securities business in the ECSM;
- ii) apprise individual licensees of the requirements for continuing to meet the fit and proper requirements of the Securities Act;
- iii) assist individual licensees to be compliant with the requirements of the Securities Act 2001 and the relevant provisions in the Securities (Conduct of Business) Regulations;
- iv) assist the Commission in collecting and proficiently maintaining reliable and valid records for licensees;
- v) provide options for the re-entry of licensees into the market following a period of absence or inactivity;

²The Securities Act Chapter S13 of Anguilla; the Securities Act No. 14 of 2001 of Antigua and Barbuda; the Securities Act No. 21 of 2001 of the Commonwealth of Dominica, the Securities Act No. 23 of 2001 of Grenada; the Securities Act Chapter 11.01 of Montserrat, the Securities Act Chapter 21.16 of St Kitts and Nevis; the Securities Act Chapter 12.18 of Saint Lucia; and the Securities Act Chapter 261 of St Vincent and The Grenadines

EASTERN CARIBBEAN SECURITIES MARKET LICENSING POLICY FOR INDIVIDUALS

- vi) provide explicit guidance to give effect to sections 64(3) and 66(1)(f) of the Securities Act 2001 and the Securities (Licence and Fees) Regulations; and
- vii) outline the rules for the ECSM Certification Examination Programme.

3.0 Scope and Application

The Policy outlines the procedures and processes for licensees and prospective licensees operating in the ECSM.

PART II - CERTIFICATION EXAMINATION: PRE-REQUISITE FOR LICENSING

4.0 Eligibility for Licensing

The applicant must possess suitable credentials, experience and be of a good reputable character to be considered eligible for licensing by the Commission. The applicant must be fit and proper to undertake the required activities of the securities operations in the ECSM.

In assessing whether the applicant is a fit and proper person, the ECSRC assesses a number of factors including:

- Financial Status;
- Reputation and character;
- Education and other qualification or experience; and
- Satisfactory completion of any prescribed examination required by the ECSRC.

4.1 Financial Status

The suitable candidate should have established and carry on a good relationship with a financial institution. The Commission requires a Reference Letter from a financial institution with which the applicant conducts business on a regular basis. The Reference would indicate the number of years of the current standing business

EASTERN CARIBBEAN SECURITIES MARKET LICENSING POLICY FOR INDIVIDUALS

relationship with the applicant and indicate whether the applicant is in good standing with the financial institution.

4.2 Reputation and Character Reference

The character Reference is a requirement for completing the Licence Application. The applicant is expected to indicate the names of two Referees within the Application Form who could provide character references for the applicant. The Letters of Recommendation must be completed by the referees and submitted directly to the Commission by the referee in a sealed envelope and signed across the seal. Any Letter of Recommendation which reaches the Commission unsealed or found to be tampered with, will not be accepted by the Commission. The Commission will accept Letters of Recommendation via electronic mail, however, only directly from the character referee.

The Letter of Recommendation is used to determine whether the individual has the ethos necessary to conduct securities business in a fair manner and in accordance with its employer's policies and the laws governing the operations of the securities business.

4.3 Education and other Qualification or Experience

The suitable candidate should have at least a first degree in one or more of the following subject areas; Accounting, Banking, Finance, Investment, Economics along with experience and training in the securities industry. The experience required would be assessed by the Commission based on the licence being applied for; however, the applicant is expected to possess at least 1 to 3 years of relevant industry experience.

Candidates who are already authorised to operate in a foreign securities market may qualify for licensing by the Commission and may be exempted from Paper I of the ECSM Certification Examination by providing proof of licensing or authorisation from a foreign regulatory authority and relevant Continued Professional Development (CPD) as per Appendix II.

**EASTERN CARIBBEAN SECURITIES MARKET
LICENSING POLICY FOR INDIVIDUALS**

4.4 Prescribed Examination Requirement

In considering whether an applicant is a fit and proper person to be licensed, the Commission shall have regard to the applicant’s satisfactory completion of the ECSM Certification Examination. Therefore, success in the ECSM Certification Programme and Examination (ECPE) is one of the eligibility criteria for obtaining a licence to operate as a Principal, Representative or Investment Adviser in the ECSM and for Associate Membership in the Eastern Caribbean Securities Exchange.

The ECSRC may not grant a licence to an individual who has not been successful in the certification examination. **All individual licence applicants must successfully complete the ECSM Certification Examination with a pass rate of 70 per cent in order to be considered eligible for licensing.**

However, individuals with a minimum of three years’ experience in a foreign securities market that have been successful in the following examinations (see table below) issued by the Financial Industry Regulatory Authority (FINRA) may be considered for exemption from Paper I of the ECSM Certification Examination.

5.0 ECSM Certification Programme and Examination (“ECPE”)

The objective of the ECPE is to provide a thorough understanding of the Securities Act and its accompanying regulations and their applicability in the ECSM and to provide practical training on the securities trading platform to individuals who intend to become licensed market participants in the ECSM. The ECPE comprises a training and examination component. The training in both the theory and practical aspects of the operations of the ECSM is conducted mainly through webinars, totalling approximately 30 hours over a 5-day period.

5.1 Who Should Participate in the ECPE

The ECPE is targeted at persons with a background and/or experience in Finance and Investment, Banking, Accounting, or Economics. The ideal candidate has academic training and practical experience in the securities industry. However, the ECPE will be of particular interest to recent graduates who wish to specialise in securities business. The training and examinations for this programme are conducted at a postgraduate level, and as such, candidates are expected to have a first degree or extensive experience in one of the recommended disciplines.

5.2 Structure of the ECSM Certification Examination

The ECPE culminates with the ECSM Certification Examination which is in two parts: Part I and Part II. The structure of the examination consists exclusively of multiple-choice questions, with four available choices per question. There are 200 questions divided into two papers, each consisting of 100 questions. The examination is completed in two sittings, one for each paper. Two hours is allotted to complete each paper.

The objective of the ECSM Certification examination is to assess prospective market participants' competence in securities market issues, and the laws and regulations in force and governing the operations of the ECSM. The assessment will be used to determine candidates' eligibility to be licensed as market participants.
