INFORMATION TO BE INCLUDED IN FORM ECSRC-OR

1. **Financial Statements**

Provide Financial Statements for the period being reported in accordance with International Accounting Standards. The format of the financial statements should be similar to those provided with the registration statement. Include the following:

- (a) Condensed Balance Sheet as of the end of the most recent financial year and just concluded reporting period.
- (b) Condensed Statement of Income for the just concluded reporting period and the corresponding period in the previous financial year along with interim three, six and nine months of the current financial year and corresponding period in the previous financial year.
- (c) Condensed Statement of Cash Flows for the just concluded reporting period and the corresponding period in the previous financial year along with the interim three, six and nine months of the current financial year and the corresponding period in the previous financial year.
- (d) By way of *Notes to Condensed Financial Statements*, provide explanation of items in the financial statements and indicate any deviations from generally accepted accounting practices.

2. **Management's Discussion and Analysis of Financial Condition and Results of Operation.**

Discuss the reporting issuer's financial condition covering aspects such as liquidity, capital resources, changes in financial condition and results of operations during the reporting period. Discussions of liquidity and capital resources may be combined whenever the two topics are interrelated. Discussion of material changes should be from the end of the preceding financial year to the date of the most recent interim report.

The Management's Discussion and Analysis should disclose sufficient information to enable investors to judge:

1. The quality of earnings;
2. The likelihood that past performance is indicative of future performance; and
3. The issuer's general financial condition and outlook.

It should disclose information over and above that which is provided in the management accounts and should not be merely a description of the movements in the financial statements in narrative form or an otherwise uninformative series of technical responses. It should provide management's perspective of the company that enables investors to view the business from the vantage point of management.

The discussion should focus on aspects such as liquidity; capital resources; changes in financial condition; results of operations; material trends and uncertainties and measures

taken or to be taken to address unfavourable trends; key performance indicators; and non-financial indicators.

General Discussion and Analysis of Financial Condition

For the current quarter, revenue grew by 3% compared the same quarter of the previous year. The main driver for this increase was Managed Services as our corporate team continues to capitalize on opportunities in light of a very competitive landscape. It is also worth mentioning that all other lines of businesses performed well compared to the previous year. A quarter by quarter comparison indicates growth for the following areas of the business; mobile by 0.2%, Broadband by 5% and Managed Services by 14.9%. The completion of projects in 2017 such as the broadband upgrade, the rollout of Flow TV and the revamp of mobile postpaid plans, gave the early start to a favourable quarter. Despite the progress that is being made, Fixed line continues to be challenged on the international side. However, every effort is being made to secure arrangements with roaming partners around the world to mitigate against this downward spiral.

Threat to the continuity to our business continues to be natural disasters, mainly hurricanes. As a result, the business ensures that all insurance policies are current in the event of any catastrophe. Additionally, financial performance continues to be threatened by Voice Over IP products such as Whatsapp. However, we believe that these risks will be mitigated against the programmes that are currently in place to drive revenue.

Liquidity and Capital Resources

Provide a narrative explanation of the following (but not limited to):

- i) The reporting issuer's financial condition covering aspects such as liquidity, capital resources, changes in financial condition and results of operations.
- ii) Any known trends, demands, commitments, events or uncertainties that will result in, or that are reasonably likely to result in, the issuer's liquidity increasing or decreasing in any material way. If a deficiency is identified, indicate the course of action that the reporting issuer has taken or proposes to take to remedy the deficiency.
- iii) The issuer's internal and external sources of liquidity and any material unused sources of liquid assets.
- iv) Provisions contained in financial guarantees or commitments, debt or lease agreements or other arrangements that could trigger a requirement for an early payment, additional collateral support, changes in terms, acceleration of maturity, or the creation of an additional financial obligation such as adverse changes in the issuer's financial ratios, earnings, cash flows or stock price or changes in the value of underlying, linked or indexed assets.

- v) Circumstances that could impair the issuer's ability to continue to engage in transactions that have been integral to historical operations or are financially or operationally essential or that could render that activity commercially impracticable such as the inability to maintain a specified level of earnings, earnings per share, financial ratios or collateral.
- vi) Factors specific to the issuer and its markets that the issuer expects will affect its ability to raise short-term and long-term financing, guarantees of debt or other commitment to third parties, and written options on non-financial assets.
- vii) The relevant maturity grouping of assets and liabilities based on the remaining period at the balance sheet date to the contractual maturity date. Commentary should provide information about effective periods and the way the risks associated with different maturity and interest profiles are managed and controlled.
- viii) The issuer's material commitments for capital expenditures as of the end of the latest fiscal period, and indicate the general purposes of such commitments and the anticipated source of funds needed to fulfil such commitments.
- ix) Any known material trends, favorable or unfavorable, in the issuer's capital resources, including any expected material changes in the mix and relative cost of capital resources, considering changes between debt, equity and any off-balance sheet financing arrangements.

Discussion of Liquidity and Capital Resources

The Company manages operational liquidity supported by Regional Treasure to manage liquidity in order to meet its financial obligations of servicing and repaying external debt and strategic initiatives.

At 31 March 2018, the Company had cash and cash equivalents of \$1,796. These amounts are highly liquid and are a significant component of the Company's overall liquidity and capital resources. Liquidity forecasts are produced on a regular basis to ensure the utilization of current facilities is optimized, to ensure covenant compliance and that medium-term liquidity is maintained for the purpose of identifying long-term strategic funding requirements.

Capital resources spent this quarter was \$0.772m. Majority of this spend went towards the ECTEL LNP Project, which allows customers to enjoy the privilege of number portability, without having to change their mobile numbers or sims. A substantial amount of CAPEX was also spend on the 2017 Mobile Hurricane Project, which essentially ensures that our mobile network equipment is adequately equipped to withstand the impact of hurricanes.

Off Balance Sheet Arrangements

Provide a narrative explanation of the following (but not limited to):

- i) Disclosures concerning transactions, arrangements and other relationships with unconsolidated entities or other persons that are reasonably likely to materially affect liquidity or the availability of, or requirements for capital resources.
- ii) The extent of the issuer's reliance on off-balance sheet arrangements should be described fully and clearly where those entities provide financing, liquidity, market or credit risk support, or expose the issuer to liability that is not reflected on the face of the financial statements.
- iii) Off-balance sheet arrangements such as their business purposes and activities, their economic substance, the key terms and conditions of any commitments, the initial on-going relationship with the issuer and its affiliates and the potential risk exposures resulting from its contractual or other commitments involving the off-balance sheet arrangements.
- iv) The effects on the issuer's business and financial condition of the entity's termination if it has a finite life or it is reasonably likely that the issuer's arrangements with the entity may be discontinued in the foreseeable future.

As at March 31, 2018 there were no off balance sheet arrangements.

Results of Operations

In discussing results of operations, issuers should highlight the company's products and services, facilities and future direction. There should be a discussion of operating considerations and unusual events, which have influenced results for the reporting period. Additionally, any trends or uncertainties that might materially affect operating results in the future should be discussed.

Provide a narrative explanation of the following (but not limited to):

- i) Any unusual or infrequent events or transactions or any significant economic changes that materially affected the amount of reported income from continuing operations and, in each case, the extent to which income was so affected.
- ii) Significant components of revenues or expenses that should, in the company's judgment, be described in order to understand the issuer's results of operations.
- iii) Known trends or uncertainties that have had or that the issuer reasonably expects will have a material favorable or unfavorable impact on net sales or revenues or income from continuing operations.
- iv) Known events that will cause a material change in the relationship between costs and revenues (such as price increases, costs of labour or materials), and changes in relationships should be disclosed.
- v) The extent to which material increases in net sales or revenues are attributable to increases in prices or to increases in the volume or amount of goods or services being sold or to the introduction of new products or services.
- vi) Matters that will have an impact on future operations and have not had an impact in the past.
- vii) Matters that have had an impact on reported operations and are not expected to have an impact upon future operations
- viii) Off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships that have or are reasonably likely to have a current or future effect on the registrant's financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.
- ix) Performance goals, systems and, controls.

Overview of Results of Operations

An overview of our financials in the first quarter saw an uplift in revenue of 3% compared to the quarter of the previous year. Managed services was the main contributor to this increase which grew 14.9% compared to the quarter of the previous year. The uplift in Managed Services was the result of winning a new Direct Internet Access (DIA) contract with a client. Additionally, revenue generated in this quarter were the result of contracts, which was closed in the previous year.

Broadband services increased 5% in the current quarter compared to previous year's first quarter. With the completion of the second phase of the Superfast Broadband upgrade, customer numbers increased by 2% increase in the current quarter.

Mobile revenue also performed ably with a 0.2% increase over the previous year. A revised look into the postpaid plans was done in Q3 of the previous year, which drove the results for this quarter.

Fixed line continues to be impacted year on year especially international usage. The current quarter saw a downturn of -0.6% compared to the previous year. However, every effort is being made to minimize the impact by expanding and securing arrangements with carriers around the world.

Out-payment and operating costs increased by 3% compared to the previous comparative period. This increase was the result of marketing, which is to drive customer awareness of our new products and network maintenance costs in preparation for the hurricane season.

3. Disclosure about Risk Factors.

Provide a discussion of the risk factors that may have an impact on the results from operations or on the financial conditions. Avoid generalised statements. Typical risk factors include untested products, cash flow and liquidity problems, dependence on a key supplier or customer, management inexperience, nature of business, absence of a trading market (specific to the securities of the reporting issuer), etc. Indicate if any risk factors have increased or decreased in the time interval between the previous and current filing.

Based on management assessment, we have been able to manage and mitigate all typical risk factors by entering into long term agreements and leveraging the buying power of the group. Liquidity risk has also been mitigated by leveraging the expertise of the group Treasury team as well as the pool financing facility. Given that we operate in a region susceptible to hurricanes, continued measures are being taken to ensure that there is adequate power redundancies in the event of long term power disruption.

4. Legal Proceedings.

A legal proceeding need only be reported in the ECSRC – OR filed for the period in which it first became a reportable event and in subsequent interim reports in which there have been material developments. Subsequent Form ECSRC – OR filings in the same financial year in which a legal proceeding or a material development is reported should reference any previous reports in that year. Where proceedings have been terminated during the period covered by the report, provide similar information, including the date of termination and a description of the disposition thereof with respect to the reporting issuer and its subsidiaries.

Not applicable

5. Changes in Securities and Use of Proceeds.

- (a) Where the rights of the holders of any class of registered securities have been materially modified, give the title of the class of securities involved. State briefly the general effect of such modification upon the rights of holders of such securities.

Not applicable

(a) Where the use of proceeds of a security issue is different from that which is stated in the registration statement, provide the following:

- Offer opening date (provide explanation if different from date disclosed in the registration statement)

not applicable

- Offer closing date (provide explanation if different from date disclosed in the registration statement)

not applicable

- Name and address of underwriter(s)

not applicable

- Amount of expenses incurred in connection with the offer

- Net proceeds of the issue and a schedule of its use

not applicable

- Payments to associated persons and the purpose for such payments

not applicable

(c) Report any working capital restrictions and other limitations upon the payment of dividends.

Not applicable

6. Defaults upon Senior Securities.

- (a) If there has been any material default in the payment of principal, interest, a sinking or purchase fund instalment, or any other material default not satisfied within 30 days, with respect to any indebtedness of the reporting issuer or any of its significant subsidiaries exceeding 5 per cent of the total assets of the reporting issuer and its consolidated subsidiaries, identify the indebtedness. Indicate the nature of the default. In the case of default in the payment of principal, interest, or a sinking or purchase fund instalment, state the amount of the default and the total arrears on the date of filing this report.

Not applicable

- (b) If any material arrears in the payment of dividends have occurred or if there has been any other material delinquency not satisfied within 30 days, give the title of the class and state the amount and nature of the arrears or delinquency.

Not applicable

7. Submission of Matters to a Vote of Security Holders.

If any matter was submitted to a vote of security holders through the solicitation of proxies or otherwise during the financial year covered by this report, furnish the following information:

- (a) The date of the meeting and whether it was an annual or special meeting.

Not applicable

- (b) If the meeting involved the election of directors, the name of each director elected at the meeting and the name of each other director whose term of office as a director continued after the meeting.

Not applicable

- (c) A brief description of each other matter voted upon at the meeting and a statement of the number of votes cast for or against as well as the number of abstentions as to each such matter, including a separate tabulation with respect to each nominee for office.

Not applicable

- (d) A description of the terms of any settlement between the registrant and any other participant.

Not applicable

- (e) Relevant details of any matter where a decision was taken otherwise than at a meeting of such security holders.

Not applicable

8. Other Information.

The reporting issuer may, at its option, report under this item any information, not previously reported in a Form ECSRC – MC report (used to report material changes), with respect to which information is not otherwise called for by this form, provided that the material change occurred within seven days of the due date of the Form ECSRC-OR report. If disclosure of such information is made under this item, it need not be repeated in a Form ECSRC – MC report which would otherwise be required to be filed with respect to such information or in a subsequent Form ECSRC – OR report.
