The advent of the Covid-19 pandemic resulted in several challenges to the sustainable development of the twin-island federation. Several steps were taken to safeguard public health during the pandemic; however, the impact to the economy was devastating.

The shutdown of the tourism sector resulted in the closure of businesses, high unemployment levels, shortages of products, dependence on government programs, and a general slowdown of economic activity.

While the company is in a strong financial position with adequate liquidity, the reduction in consumer demand will continue to have an adverse effect on sales in all business sectors. The high level of unemployment will increase the risk of bad debt from existing customers and potential new customers.

The health risk and systematic economic risk associated with the Covid-19 are continuously evolving; however, the company is in an ideal position to mitigate these risks.

- Payments to associated persons and the purpose for such payments

- (c) Report any working capital restrictions and other limitations upon the payment of dividends.

There are no restrictions on working capital; however, the company must seek the consent of its bankers, Royal Bank of Canada (now Bank Of Nevis), before paying a dividend.

9. Defaults upon Senior Securities.

- (a) If there has been any material default in the payment of principal, interest, a sinking or purchase fund instalment, or any other material default not satisfied within 30 days, with respect to any indebtedness of the reporting issuer or any of its significant subsidiaries exceeding 5 percent of the total assets of the reporting issuer and its consolidated subsidiaries, identify the indebtedness. Indicate the nature of the default. In the case of default in the payment of principal, interest, or a sinking or purchase fund instalment, state the amount of the default and the total arrears on the date of filing this report.

1. The quality of earnings;
2. The likelihood that past performance is indicative of future performance; and
3. The issuer's general financial condition and outlook.

It should disclose information over and above that which is provided in the management accounts and should not be merely a description of the movements in the financial statements in narrative form or an otherwise uninformative series of technical responses. It should provide management's perspective of the company that enables investors to view the business from the vantage point of management.

The discussion should focus on aspects such as liquidity; capital resources; changes in financial condition; results of operations; material trends and uncertainties and measures taken or to be taken to address unfavourable trends; key performance indicators; and non-financial indicators.

General Discussion and Analysis of Financial Condition

Chairman's Report

The COVID-19 global pandemic had a significant impact on the Company's performance in 2020, as it has also impacted all in several ways. This has resulted in a significant reduction in our profitability, particularly in the second half of our fiscal year. Notwithstanding the pandemic, the performance for 2020 was satisfactory.

The 2020 accounts reflect several changes in accounting policies and estimates which are included in our Consolidated Statement of Changes in Equity opening balance as at October 1st, 2018, through a prior period adjustment which increased that balance by \$1,621,575. This after-tax adjustment reflects the summation of the changes, which includes recognition of our pension plan obligations, the revenue recognition and measurement of our Hire Purchase programs, and interest income revenues derived thereof. These changes have also resulted in the restatement of our balance sheets for 2018 and 2019 and our income statement for 2019.

Income before taxation of \$11,669,549 was a decrease of \$4,628,029 or 28.40 % versus 2019. Similarly, income after taxation of \$8,549,159 was less than 2019 by \$3,382,865 or 28.35 %. Basic earnings per share for 2020 was \$0.14 versus \$0.20 for 2019. Total Comprehensive Income was \$8,508,027 versus \$11,789,253 for 2019.

Turnover or group sales for 2020 was \$149,994,194 versus \$157,336,440 for 2019, a decrease of \$7,342,246 or 4.67%. Our durable goods sector showed a decrease of \$3,863,139 or 6.76%. Our automotive sector decreased by \$3,769,708 or 16.66%. Our consumable goods sector increased by \$650,002 or 0.80%.

Gross profit decreased by \$129,312 or 0.34% to \$37,397,933.

Other Income decreased by \$2,325,431 or 16.80% to \$11,518,585 due to lower interest income, car rental income, servicing and related income.

The resulting Total Income decreased by \$2,454,743 or 4.78% to \$48,916,518.

Operating expenses decreased by \$135,379 or 0.35% to \$38,864,976. Impairment losses on financial assets increased by \$634,386 due to covid related job losses offset by a decrease in selling and distribution costs of \$449,730 along with other operating expenses.

Operating profit decreased by \$2,319,544 or 18.75%, to \$10,051,542.

Share of Results of Associated Companies after tax was \$2,324,390, a decrease of \$2,779,505 or 54.96%. This decrease occurred both in St. Kitts Masonry Products Limited and Carib Brewery Limited.

Finance charges decreased by \$471,020 or 40%.

Profit before income tax decreased by \$4,628,029 or 28.40%.

Income tax Expense was \$3,120,390 versus \$4,365,554 in 2019. The effective rates for 2020 were 33.39% versus 39.00% in 2019. This lower effective rate was due to the reduction of the nominal tax rate from 33% to 25% in the second half of our fiscal year.

Profit for the year decreased by \$3,385,865 or 28.35% to \$8,549,159.

If a deficiency is identified, indicate the course of action that the reporting issuer has taken or proposes to take to remedy the deficiency.
- iii) The issuer's internal and external sources of liquidity and any material unused sources of liquid assets.
- iv) Provisions contained in financial guarantees or commitments, debt or lease agreements or other arrangements that could trigger a requirement for an early payment, additional collateral support, changes in terms, acceleration of maturity, or the creation of an additional financial obligation such as adverse changes in the issuer's financial ratios, earnings, cash flows or stock price or changes in the value of underlying, linked or indexed assets.
- v) Circumstances that could impair the issuer's ability to continue to engage in transactions that have been integral to historical operations or are financially or operationally essential or that could render that activity commercially impracticable such as the inability to maintain a specified level of earnings, earnings per share, financial ratios or collateral.

Commentary should provide information about effective periods and the way the risks associated with different maturity and interest profiles are managed and controlled.
- viii) The issuer's material commitments for capital expenditures as of the end of the latest fiscal period, and indicate the general purposes of such commitments and the anticipated source of funds needed to fulfil such commitments.
- ix) Any known material trends, favorable or unfavorable, in the issuer's capital resources, including any expected material changes in the mix and relative cost of capital resources, considering changes between debt, equity and any off-balance sheet financing arrangements.

Discussion of Liquidity and Capital Resources

- i) Disclosures concerning transactions, arrangements and other relationships with unconsolidated entities or other persons that are reasonably likely to materially affect liquidity or the availability of, or requirements for capital resources.
- ii) The extent of the issuer's reliance on off-balance sheet arrangements should be described fully and clearly where those entities provide financing, liquidity, market or credit risk support, or expose the issuer to liability that is not reflected on the face of the financial statements.
- iii) Off-balance sheet arrangements such as their business purposes and activities, their economic substance, the key terms and conditions of any commitments, the initial on-going relationship with the issuer and its affiliates and the potential risk exposures resulting from its contractual or other commitments involving the off-balance sheet arrangements.
- iv) The effects on the issuer's business and financial condition of the entity's termination if it has a finite life or it is reasonably likely that the issuer's arrangements with the entity may be discontinued in the foreseeable future.

NOT APPLICABLE

Results of Operations

There should be a discussion of operating considerations and unusual events, which have influenced results for the reporting period. Additionally, any trends or uncertainties that might materially affect operating results in the future should be discussed.

Provide a narrative explanation of the following (but not limited to):

- i) Any unusual or infrequent events or transactions or any significant economic changes that materially affected the amount of reported income from continuing operations and, in each case, the extent to which income was so affected.
- ii) Significant components of revenues or expenses that should, in the company's judgment, be described in order to understand the issuer's results of operations.
- iii) Known trends or uncertainties that have had or that the issuer reasonably expects will have a material favorable or unfavorable impact on net sales or revenues or income from continuing operations.
- iv) Known events that will cause a material change in the relationship between costs and revenues (such as price increases, costs of labour or materials), and changes in relationships should be disclosed.
- v) The extent to which material increases in net sales or revenues are attributable to increases in prices or to increases in the volume or amount of goods or services being sold or to the introduction of new products or services.
- vi) Matters that will have an impact on future operations and have not had an impact in the past.
- vii) Matters that have had an impact on reported operations and are not expected to have an impact upon future operations
- viii) Off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships that have or are reasonably likely to have a current or future effect on the registrant's financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.
- ix) Performance goals, systems and, controls,
