The retail banking industry in the Federation is comprised of six commercial banks, three credit unions and one finance company. The core products/services offered by the institutions include loans, foreign exchange services and deposit accounts.

The Bank encounters strong competition in attracting retail and business deposits and loans. National Bank's most direct competition for deposits historically has been from Commercial Banks, Credit Unions, finance companies, and other financial intermediaries. Additionally, hire purchase companies that aggressively target traditional Bank customers have made the marketplace even more competitive.

The Bank competes for loans principally through the interest rates and loan fees it charges, the range of services offered, the efficiency and quality of the services it provides borrowers and the convenient locations of its branch offices. Competition for deposits is primarily based on interest rates offered, convenience of branch offices and ATM's and ease of business transactions.
